

TITANIA – The Bloodless Revolution

PERNICIOUS FALLACIES: LIES AND CONSEQUENCES

This is page 30 out of the Book: “*BORG Wars*”, Book 1 of the Trilogy: “*Titania – The Bloodless Revolution*” by Bob Podolsky.

To create a more free, permanent libertarian society; we need to universally teach our family, friends and neighbors to mentally and personally reject our society's "10 Pernicious Fallacies" as unethical!

Look at these *Fallacies/Comforting Lies* in the shadowed boxes to the left... They are the 10 most important lies we are taught by our hypocritical "society". Then follow the arrows, over to the right boxes - These represent the real pain these lies cause; by which we, as freedom lovers, are all abused, and with which we are very fed up.

Since 1984 Podolsky has been researching, testing, and assembling a set of tools that are useful in organizing groups whose purposes are ethical. He calls this toolset, “**The Titania Project**”. The result, for those who choose to use these tools, is an ethical society that supports individualism and freedom and amplifies the creativity of its members. Think of this lore as “grass-roots organization – on steroids”.

The audio CD that accompanies this flyer is a 54-minute recording of an interview Podolsky gave with Mark Edge, host of *Freetalk Live*. The topic of the interview is, “**Why We Don't Need Government**”. If you like encountering new ideas, we suggest you listen to it – and then buy some more and distribute them to friends. Podolsky sells them for donations of **\$5 each** – with an unconditional money back guarantee on the 1st one you buy.

And be sure to visit the **Titania Project** on the Web at

CREATIVITY ENHANCEMENT MASTERMIND MEETUP An Introduction to Organized Anarchy

This weekly meetup group (details below) introduces attendees to the basic concepts of ethics, creativity, awareness, love, objective truth, leadership and personal evolution – and the best methodology on the planet for the development of organizations that embrace these values. We call such organizations, “ethical societies”. (Yes. Yes, we discuss freedom too.)

By the time you read this notice, a schedule will have been created for the expansion of the meetup curriculum to include many relevant topics on self-awareness, other-awareness, communication skills, relationships, characterology, self defense, mysticism and unconscious mental processes.

Meetings are currently held on Wednesday evenings at 7:45 at the Ramblewood Clubhouse at 30 E. Brown Rd in Mesa. The entrance is on the North side of Brown at the 1st driveway East of Center Street. This is just a few blocks South of the 202 near the McKellips Exit.
