

We are an Arizona based, Non-Profit Organization, Educating about Genetically Modified Organisms (GMOs) & the Associated Risks.

We host informative movie nights, lectures & training. We provide educational materials, maintain an online resource site and member base. We promote the “Tipping Point of Consumer Rejection”, the “GMO-Free Challenge” & advocate for GMO labeling. We support healthy vibrant GMO-Free food systems as parents, health-conscious consumers, Non-GMO farmers, food sovereignty activists & sustainability advocates. We collaborate with like-minded organizations state-wide and provide a hub for resources & networking for Arizona’s thriving GMO-Free movement.

**Rachel Linden, Founder
GMO Free Arizona**

Arizona Native, Permaculture Design Course Coordinator (Phoenix & LA), Community Garden Organizer, Co-Tour Director The Institute For Responsible Technology (CA’s Prop 37), GMO Free Lecturer, Member GMO Free USA & Founding Member “The Coalition of States”.
