19 July 2018

Freedom Interactive Television Networks Association (FITNA) has organized a limited partnership (FITNALP) for its interactive television networks project. The general partner is FITNA and there are 90 units of \$15,000 available to limited partners. The combined \$1.35 million gains 3% of the equity entitling limited partners to earnings from what is defined as The Freedom Plan:

- the first 4 networks established by FITNA in sequence
- the first 3 network-owned shows on each of those 4 networks (12 shows total) and
- all customer-produced shows as agreed with each producer for each of these first 4 networks derived from re-sale of all distribution methods' time such as nationwide satellite or Internet Protocol TV (IPTV); charges for interactivity generally about 15% of gross receipts from each show series; and any advertising revenue FITNA is responsible for creating based on the amount of the sponsors' media buys.

FITNA will place, as part of its contribution to the general partnership, license agreements with FITNALP to make use of our new techniques for building interactive television networks which allow show producers, sponsors, and viewers to interact, compensate one another, and create enormous value. After 18 months, FITNALP's limited partners may convert to initial shares in the to-be-formed Wyoming C corporation contemplated for operating the networks, their crypto-tokens as rewards for viewers' participation, and related assets. The 3% equity interest for the \$1.35 million total available to limited partners gives the resulting business a valuation of \$45 million in the short term. We anticipate within 3 years each of the 4 TV networks will be valued at ~\$200M each, & horizon ROI ~\$1.7B/year.

Additional phases of funding for the combined operations of FITNALP, related companies developed for Percentage As You Earn finance & finansurance software, and other freedom development technologies, and to provide for potential public offerings, initial coin offerings, or other financial developments are contemplated. Any other equity partnerships from prior, current, or future actions by FITNA teammates or designated functions recognized by the board, will be from the other 97% of the corporation. This does not limit any FITNA founders from also investing in these limited partner units of FITNALP.

Use of funds includes:

1. Marketing network services to show-developers, while also marketing network shows to advertisers.
2. Creating Websites, owned/rented data center cloud capability, phoneapps, and phone numbers with human operators, to handle millions of potential customers from TV shows.
3. Ramping up *Freedom Interactive Television Networks Association* (FITNA) for coast-to-coast satellite and Internet Protocol IPTV programs with proposed Forbes Financial News formats such as content from *Lincoln's Risk Registry, Ratings, and Relief* or other external companies, to drive millions of customers to PAYE financiers and finansurers. Income: Re-selling volume discount airtime distribution; 15% gross receipts from interactivity; & 15% sponsorships. Income from daily, weekly, & weekend series, and special shows of up to ~109 anticipated per network per year, will include formats

such as *No Mo' Repo*; *Green Angel Inventors' Forum*... It is anticipated that one interactive show price to a producer will be ~\$100-\$300k per 90-days of one-hour or half-hour shows. Only a few network-owned shows will be produced as examples to other producers of network standards of operation to best practices of interactive use and network policies. The primary 3 policies of the network are all conflicting opinions are welcome in a show format including None of the Above (NOTA); interactivity with audiences is required; and no censorship as the audience individuals will decide what they are willing to tolerate, confront, or edit for themselves by their choices and technology available.

4. Sponsoring FITNA airtime with www.1stDIBS.space Advertising, PR, and Cause-Marketing Agency, using interactive PhoneVoter tallies, inquiries, contributions, and purchases (of PAYE services). Income: ~15% ad agency media-buy commissions.

So far, the following show summaries are relevant to early discussions for both network and customer shows. These are examples only, and we cannot guarantee that any of these shows is going to be developed, nor can we guarantee any particular income from any show that is developed.

Proposed ***Forbes Interactive Financial Action Network (FIFAN)*** shows [working titles]:

- *Weather Or Not You Survive* (Lincoln's RRR pollution, medical, investment data, weather news)
- *Angels for Enterprise* (Different business sectors and shows)

- *Community Enterprise Incubators* (CEI) Participatory TV (RV parks, maker shops, spa, offices)

Our Core Team consists of the following key personnel [CVs are in the appendices]:

Melinda Pillsbury-Foster, *Chair & Chief Executive Officer*, is responsible for Investor Relations and overseeing business policy implementation. Melinda is an actionary in the Creative Industry, who ramps up interactive television networks as well as interactive radio, or website shows. She is a strategist for environmental liability, responsibility, individual & women's rights, social justice, volitional science, education tourism, cause-marketing, and free-market transitions to sustainable technologies and space resources. She is primarily in charge of content.

Brock d'Avignon, *President & Executive Producer*, is responsible for ramp-up of interactive television networks' operations. Brock is a network TV producer, director, eCommerce technology marketer, entrepreneur, educator, theme park venue creator, and world's fair consultant. Brock is a founder of *Liberty International* now in 90 nations. His work includes advanced aerotech systems and team leadership including pioneering the *PhoneVoter TV Network* in 1992 for several presidential candidates on satellite. An educator, Brock teaches Technology Education, Distance Learning grades 7-12, Social Sciences, and Real Client Project-Based Learning. Brock is the nation's leading historian of precedents & advocate for uses of Percentage-As-You-Earn (%AYE) Finance of Personal Investments (PI), and %AYE Medical Finansurance for all in the free-market.

Jim Davidson, *Chief Financial Officer*, is responsible for the financial activities of the company. Jim has served in business development, planning, technology, and management roles in start-ups and established businesses. Jim's expertise in payments processing first began as a shift supervisor for cheque processing in 1983. He has been involved in software development since 1978, and technology companies since 1986. He has worked extensively in real estate development, digital currencies, software, aerospace, teaching, cryptology, and cyber-security. He currently serves as an advisor to the Digital Cash Alliance and the Ascension Foundation. In addition to business endeavors, Jim has been a Professor at Montgomery Community College in Conroe, Texas; at private teaching establishments for software training; founding in 2009 the Individual Sovereign University.

Chris Boehr, *Chief Technology Officer*, is responsible for implementing the technology policies of the company. A board member of the *Science of Freedom Foundation*, Chris is a software engineer, team leader and algorithm scientist with extensive experience creating complex software for a variety of products and applications involving the transmission and processing of video content, phone firmware, and programming for banks. His recent focus has been on video image processing, face recognition, airborne vapor detection and identification, signal processing, data communication, & intuitive user interfaces for large audiences' individual response to mass media.

Howard Hinman, *Chief Administrative Officer*, is responsible for daily operations, tracking details, and keeping the team on path. Howard has 37-years experience as a paralegal & legal research assistant for major law firms in medical care and real estate. He has extensive experience in developing contract language, contracts, business development, and networking. Howard's skills include extensive computer software knowledge for business, finance, and film / television promotion.

Freedom Interactive Television Networks Association
Limited Partnership *Letter of Intent* for The Freedom Plan

On or before 15 August 2018 Freedom Interactive Television Networks Association (FITNA), a Kansas non-profit organization, offers and agrees to accept as a limited partner the following party:

_____ of _____
_____ (address, city, state)

in the FITNA Partnership to spin-off for-profit entities. The purpose of the FITNA Partnership is to develop business organizations to pursue Freedom Interactive TV Network operations, including corporations and charities as needed. A total of 90 Limited Partners may be accepted for \$15,000 per partnership unit, for 3% of the for-profit entities created by FITNA as The Freedom (business) Plan. This letter indicates the intent of the two parties to form a partnership with the general partner being FITNA, and one of the limited partners being indicated above. The General Partner or any person designated by the General Partner, is hereby designated as an authorized person to execute, deliver & file any certificates, notices, documents and any amendments and/or restatements thereof necessary for the Partnership to qualify to do business in a jurisdiction in which the Partnership may wish to conduct business.

The amount placed by the limited partner is: \$_____.

and as written amount _____

A complete partnership agreement, complying with appropriate legal authority in relevant jurisdictions, will be prepared by the General Partner and submitted to the Limited Partner within 30 days of this agreement. Funds paid by the Limited Partner designated herein may be deposited to the benefit of the General Partner; but would be returned in their entirety at the refundable option of the Limited Partner if the terms of the complete partnership agreement are not found acceptable by the Limited Partner. Conversion of the partnership interest contemplated in this document is to shares of stock in a corporation(s) under certain conditions to be defined is an anticipated strategic development. Any such conversion procedure would be outlined in the complete partnership agreement, along with other exit strategies, buy-out provisions, and obligations on both parties. The General Partner may cancel this agreement at any time prior to 15 August 2018 and return the Limited Partner's funds in their entirety. The Limited Partner understands & agrees that other limited partners are contemplated, and the Limited Partner shall have no control over the choice of with whom the General Partner enters into agreements.

This letter of intent is the entire agreement between the parties. This agreement will be adjudicated under the laws of the state of California. Modifications and extensions to this agreement must be in writing and signed by both parties. This agreement is not itself a complete partnership agreement; yet contemplates the formation of such a partnership. Agreed this day _____ of _____ 2018 by:
